Work Experience

Realspace Group

Front-End developer Intern

May 2023 - July 2023
Indore, India

- Developed engaging and user-friendly web interfaces using React.js, implementing components, state management, and responsive design techniques to enhance the user experience.
- This project provided invaluable hands-on experience, and deepened my understanding of front-end development with React.js, and JavaScript concepts.

MII Foundation

Front-End developer Intern

Feb 2023 - May 2023
Indore, India

- Worked with a team to create a MERN website for Medi-Caps Innovation and Incubation Cell

MU Software cell

Front-End developer Intern

Sept 2020 - Aug 2021
Medicaps University Indore, India

- I was given the opportunity to work on a project, utilizing the knowledge of React js, CSS, JavaScript, and integration APIs

Project

TODO list

- Developed a dynamic web application with,(front-end with) React.js, Redux, and styled-component, and (back-end and database with) Express, and MongoDB.

E-commerce website

- Successfully developed an e-commerce website with React.js, javascript, and styled-components, showcasing a seamless user interface and modern and responsive design, enhancing the website's visual appeal and user experience.
- The project emphasizes the front-end part of the site, with all the features such as sorting, filtering, adding to the cart, and using an outer Form API to get form data.

Hostel On Hand

- Provides users with complete information on listed hostels and PGs.
- This project was developed with the use of React js.
